

Illustration & Logo Design

Adobe Illustrator & Macromedia FreeHand

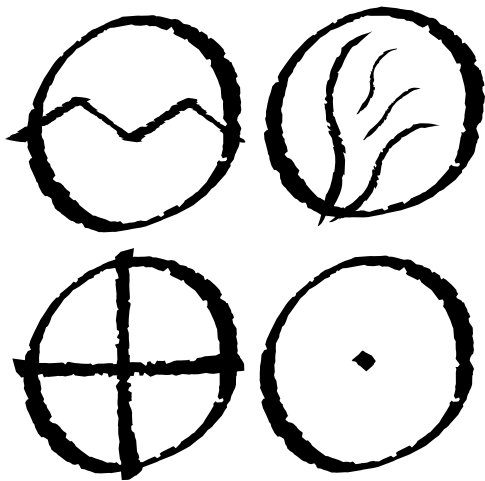

by Arthur Durkee

On these pages are original logo designs, spot illustrations, and technical illustrations created by Arthur Durkee. Most were created in Adobe Illustrator or Macromedia Freehand. Some original font designs and manipulations were created in Macromedia Fontographer. In some cases, variations are presented, as the client asked for more than one option before making a final decision.

Please note that some materials presented here are copyrighted by the individual clients, and may not be reproduced in any form without permission.

All other logo designs and illustrations © Arthur Durkee. All rights reserved.
